Our New Stock of Tweeds and Serges

OUR new stock of tweeds and serges is the result of careful selection from the best the Old Country can produce.

The price of woolens having advanced so much since we purchased these goods that we are unable to duplicate them anywhere at the same price. If you are thinking of purchasing a new suit or over coat we shall be pleased to send samples and measuring forms to any address in the Island.

A HUNTING TRIP ON WEST COAST

The West Coast of Newfoundland has been made historic the world over, for many a year, because of the wonderful attraction it posesses for hunting. Only recently three gentlemen, natives of Huntington, Long Island, New York, U. S. A., spent a most enjoyable time there; caribou hunting they contrived to bring to earth a goodly number of the monarchs of the forest. They arrived in the city last Friday, delighted with their success, and the immense pleasure which it afforded them.

While here, they were the guests at the Crosbie, where it is needless to say that they were catered to in the best manner possible by the affable proprietoress, Hon. Mrs. S. K. Bell. The genial John B. Orr gave them a spin around the city and the surburbs in his autobile, which greatly added to the enjoyment of the trip

They left by the Silvia for their homes Saturday. Their names are, Dr. A. Henderson, W. Pendill, S. Peltit. They take with them many happy memories of their sojourn on the shores of Terra Nova.—Advocate.

Wedding Bells

Archibald-White

Hr. Grace Standard.

The marriage of Miss Mary Howard Archibald, younger daughter of the late F. C. Archibald and Mrs Archibald, to Mr. Charles A. White of Rothesay, St George's, was solemnized by the Rev. Mr. Dennie at St. George's on Friday last. The wedding was a quiet one, the bride being unattended. Miss Archibald who had been the past two years nursing in New York, returned home in July last and had been the guest of her brother Mr. H. D. Archibald, during the summer. She is a general favourite and to Mr. and Mrs. White the best wishes of their large circles of friends for a long and happy wedded life will be extended. Mr. and Mrs. White will spend the winter in Bermuda.

NEW COMMANEER-IN-CHIEF

For North American Station

Vice-Admiral Sir Michael Culme-Seymor, who has been appointed Commander-in-Chief of the North American and West Indies Naval Station, in succession to Admiral Sir William Pakenham, was born August 29, 1867, being a son of the third Baronet of that name. Sir Micbael has been second in command in the Mediterranean since 1920. He was married in 1896 to Florence Agnes Lousia, youngest daughter of the late A. L. Nugent, by whom she has one son and one daughter. His Lieutenancy in the Navy dates from 1889. In 1905 he was Captain, and promoted to Rear Admiral in 1916. He served at the Battle of Jutland in that year and was mentioned in despatches. Since the close of the war he has been Rear Admiral commanding the Black Sea ard Caspian Sea squadron.

MORE GATENA DISCOVERIES

Two discoveries of galena ore have been made recently at Fox Harbour, some short distance across the sound from Argentia. Mining leases covering the property have been granted to the Silver Cliff Mining Co. This company has also secured a lease of claim No. 9 which adjoins their property at Argentia. No. 9 has been known for scores of years as the paint vein and large quantities of oxide of lead have been taken out by the residents from time to time and used.—Telegram.

SPANISH WINE AND NFLD. CODFISH

"Anglo-Spanish Trade Agreement is signed becoming effective Monday, (yesterday) Newfoundland not included, but understand the necessary reciprocity includes Spanish wines. We are in communication with Sir Richard Squires and the High Commissioner regarding the matter.

The foregoing message we understand was received in St. John's from Hawes & Co. and posted in the Board of Trade rooms.

MAGIC BAKING POWDER

WINNIPEG MONTREAL

READY MARKET

At St. John's for Labrador Fish

The vessels now in port with fish cargoes are having little difficulty in disposing of their catch, the majority of them discharging at their suppliers' premises, and are getting $4 00 per quintal for Labrador, as arranged previously by fish dealers. There was a little flutter during the early part of the week when the Spanish firm who were loading the Herbert Warren for Seville, when $4.10 cents was paid for several quintals to complete this vessel's cargo. The fish, however, was discharged at the vessel's side and the extra cost of putting it in the store was thereby avoided, hence the firm was able to pay the extra money for the fish. Shore fish is still holding its own around $5.50 with $6.00 for extra No. 1 quality.

To our Advertisers

We again call attention to advertisers that copy for change on 2nd and 3rd pages must reach us before noon on Monday, and for 1st and 4th pages before noon on Friday, otherwise it will have to lay over until following issue.

To our Subscribers

Some of our subscribers have not yet paid their subscription. We direct their attention to the rule of payment in advance. We are revising our lists and overdue accounts will be placed in the hands of our collectors. by early remittance you will save the cost of collection.

NOTES AND COMMENTS

Conditions in the Near East have not improved, and Constantinople is likened to a vast powder magazine which the British are endeavouring to keep from igniting. The Angora Government continues to press demands for the evacuation of Allied forces, but Allies will not yield.

Cyril and Alexander Chafe, sons of Luke Chafe, of Rose Blanche, have opened up a store at Petrie's Crossing in the building fomerly occupied by P. J. Turner, and are trading under the name of Chafe Bros. Their opening announcement appears on the 1st page of this issue.

A notice issued on Saturday by the Deputy Colonial Secretary, states that the railway operation arrangements, made between the Government and the Reid Nfld. Co., and which expires to-day, have been extended to the 15th of February, and that R. C. Morgan will continue as General Manager.

We direct the attention of our readers to the advertisements appearing in our columns. These advertisements contain shop news and are inserted by the different business people for your information and guidance. The person who fails to read these advertisements misses the most important news contained in a newspaper. They are the most important news because they often save those who follow them dollars in time and money.

A party consisting of Major E. A. Betcher, F. Hiam, Col. A. Christie. F. W. Bates, and composing a delegation of the British Empire Exhibition arrived from England via Canada by last Friday's Kyle and passed through to Grand Falls by that day's No. 2 express, they having had the private car Terra Nova placed at their disposal. They were met at Port aux Basques by H. W. LeMessurier Deputy Minister of Customs. They proceeded on to St. John's by Sunday's express Major Betcher is assistant general manager of the British Empire Exhibition. Col. Christie is financial adviser and Mr. Bates is acting as secretary.

Curling

J. T. Thorne went to St. John's by Sunday's express.

The s.s. Sagona sailed north on the Straits service last Tuesday night.

Rev. H. Petley went up country by train on Monday evening to hunt caribou.

We understand the schr. Spencer Lake will return here with a cargo of coal.

N. M. O'Leary, a commission agent of St. John's, arrived here by Sunday's express.

The schr. Spencer Lake is being chartered by Basha & Sons to take away a cargo of herring.

Mails from Bonne Bay which came overland by the new road arrived here last week.

Owen Brown, manager Empire Stores, Humbermouth, was in Curling on Monday afternoon.

W. J. Boland has his smoke house in operation and is turning out a very nice article in smoked herring.

On Friday the first sleighs for the season were out. Last year the first sleighs were out on 7th November.

The schr. Muriel E. Walters, Capt. Samuel Shaw, has discharged her cargo, and will wait for a cargo of frozen herring.

Miss. Ella Sheppard came in from Lark Hr. by the George L on Tuesday and is spending a few days as guest of Miss Dorothy Petley.

Saturday was Armstice Day. Misses Maria Bagg and Dorothy Petley were out tagging. During the day they secured $30 and disposed of 100 poppies.

The schr. William C. Smith, Capt. Jos. Petipas, arrived here Saturday morning from Halifax via North Sydney. Capt. Petipas will load his vessel with frozen herring.

The schr. Donald Silver, Capt. Joseph Hackett, went to Bonne Bay last Wednesday to land part of her cargo of coal. She returned here on Monday and landed the balance of her cargo.

To arrive this week a shipment of Clothing, including ladies' Coats, Jersey and Serge Dresses, Plaid Skirts, etc. Also to arrive from England a shipment of Spanish Grapes and Cutlery.—AMERICAN CLOTHING STORE, CURLING.

BAY OF ISLANDS HERRING FISHERY

The motor vessel Gaspe, Capt. Wallace Parsons, arrived from Gloucester last week, and after discharging at Woods Island, she proceeded to North Arm where she is loading salt bulk herring.

The schr. Louise Silver, arrived at Woods Island on Monday. She proceeded to North Arm where she will load salt bulk herring for Gloucester.

There are five vessels in Bay of Islands at present for herring cargoes.

At North Arm herring have been plentiful the past week.

On Monday there were big catches of herring at Middle Arm.

Owing to the storm of Friday many of the fishermen in Middle Arm were unable to haul their nets.

Saturday's herring catches in Middle Arm ranged from twenty-four tubs to thirty-five tubs for a boat.

WHAT PURPORTS TO BE MEMORANDUM OF THE HUMBER AGREEMENT

The Daily News of Friday publishes editorially what purports to be a memorandum of the agreement recently entered into relative to the Humber development operations, or rather as it stood on 27th October—10 days before the agreement was signed. Our morning contemporary prefaces it by saying it does not guarantee its textual accuracy, or its completeness. We give the Memorandum as published in the News, as follows:

MEMORANDUM:—Water Power Development, Pulp and Paper Mills, Atmospheric Nitrogen, Aluminum, Carbide, etc., Electric Smelting, Ultimate Development £4,000,000. Present immediate development £2,000,000. One of the largest firms of British contractors going to carry out the work and have full and only charge of the undertaking and all business arrangements. The British Government to guarantee interest on £1,000,000, for immediate use, of the first £2,000,000, and the Newfoundland Government have also guaranteed interest on the other million, subject to ratification by the Newfoundland Parliament at the coming session. The money has all been arranged through a strong financial organization. All the arrangements have been made and concluded with the Lloyd George Government, and only a few insignificant departmental details remain to be drawn up which the new Government (Bonar Law's) cannot but agree to

Personal Mention

H. D. Reid is expected to-day from England via Quebec.

Capt. Frank Forward came in from Saudy Point by Sunday's express, and returned home on Monday.

W. McGrath, travelling for a United States cordage company, came in from St. George's by Sunday's express.

His Excellency Sir William Allardyce, the new governor is expected to arrive at St. John's by the next trip of the s.s. Sachem, due there about the end of this month.

J. P. Powell, of the Reid Nfld. Co., who was to England, passed through here by special train to Deer Lake on Sunday evening, accompanied by a party of English engineers.

Hon. W. R. Warren, Minister of Justice, who has been to London in connection with the Humber negotiations and other Government matters, arrived at Quebec on Friday and is due to pass through enroute to St. John's to-day.

We note that W. B. Temple, brother of Mrs (Rev.) Butler, St. George's and fomerly editor Twillingate Sun and who moved to Toronto last year, is now with the Montreal Herald, being in charge of the advertising Department, Composing Room Staff.

John P. Murray is enthused over result

"Before I had finished my first bottle of Tanlac I was beginning to feel fine, and was praising it so highly that I guess everyone in my family was using it," declared John P. Murray, well known wheelwright, of 940 Prince St., Truro, Nova Scotia.

"I hadn't been feeling right for a long time—wasn't downright sick, but getting so I'd be just about all fagged out after a big day's work. My stomach began to go back on me too, and I was bothered with constipation all the time. My food soured on my stomach and I was badly distressed with gas.

"I was in an awfully-run down condition when a friend of mine, who was taking Tanlac for the backache, told me all about it, and I started taking it. I can say it built me right up. I can do the biggest day's work and still feel fresh at quitting time. My stomach is perfectly sound, I have a fine appetite and am simply in fine shape all around. I am glad to recommend Tanlac to anybody looking for a stomach medicine."

Tanlac is sold by all good druggists.

DISABLED C.G.M. STEAMER

Being Towed to St. John's

Montreal, Nov. 10—A report has been received at the offices of the Canadian Government Merchant Marine here that the Newfoundland-Reid steamer, which put out to locate the disabled Canadian Seigneur, picked her up on Wednesday and had her cable on board.

Since then the weather has been good, and, although the Canadian Seigneur is 700 miles out into the Atlantic, there is no anxiety felt as to her fate.

It will probably take a week or ten days to bring the vessel into the nearest port. It was a week ago that the damaged ship lost her rudder.

BEECHAM'S PILLS
Sweeten the Stomach

DEATH OF MISS ASHMAN

The death of Miss Ashman occurred Monday morning. She was residing at the Presbytery at the time of her death. Deceased was a native of St. John's, but has resided on this coast for some twenty years or more. For a number of years she superintended the Spruce Brook Log Cabin hotel, and was in residence there when a former building was burned some years ago. It was in midwinter and the fire broke out in the late hours of the night after she had retired, and she had a very narrow escape, barely got out in her night clothing. We understand the funeral takes place from the Church of the Sacred Heart, and the remains will be laid to rest at Mount Cecilia cemetery.

Constipation Banished

A druggist says: "For nearly thirty years I have recommended the Extract of Roots, known as Mother Seigel's Curative Syrup, for arresting and permanently relieving constipation and indigestion. It is an old reliable remedy that never fails to do the work." 30 drops thrice daily. Get the Genuine. 50c. and $1.00 bottles.

ANOTHER BIG EXPLOSION IN PENSYLVANIA MINE

17 Persons Missing

Spangler, Pa., Nov. 7.—The bodies of fifty miners who lost their lives in the Reilly Mine explosion here yesterday, lay in the temporary morgue at nine o'clock this morning. Thirteen more were in sight in the mine, rescue workers said, and 32 injured were in the miner's hospital.

There is still some uncertainty as to the number of men who went to work yesterday, but it was pointed out that if the total was 112, as some authorities believed, the missing 17 persons would probably be found in the eigth heading where the water had risen so rapidly that exploration had to this morning been impossible.

$50,000 FIRE AT SYDNEY

Family had narrow escape in blaze in Fortune Block

Sydney, Nov. 10.—Fire early this morning destroyed Fortune Block, a wooden structure, at 149 Prince Street, and caused a loss of about $50,000. Wm. Poaz, with his wife and four children, living on the second floor, narrowly escaped death when the flames broke through from down stairs without previous warning and forced them to flee in their night clothes. Two other up-stairs lodgers also escaped.

The conflagration started in the Prince cafe on the ground floor, shortly after midnight. From there it spread into the wholesale store of the National Drug and Chemical Company, destroying the stock there.

News of the World

Shanghai, Nov. 10.—200 persons are reported to have perished in a fire on the river boat Ta Shing, which was carrying passengers and produce between Shanghai and Tsungming Island in the mouth of the Yangtse.

An earthquake which lasted four hours occurred at Chile on Saturday and rocked it from end to end. It was accompanied by a tremendous tidal wave. The movement of the ocean is described as phenomenal and gave evidence of a terrific disturbance in the bed of the Pacific. The sky was illuminated by electric discharges and fires broke out. It is estimated at least one thousand are dead and many thousands in distress.

Chicago, November 10.—A continuance of Republican control in Congress, but with a majority of 165 in the House slashed to fifteen, and a Senate majority cut in two, was assured last night.

While the Republicans retained only seven above a House majority of 218 and five above the Senate majority of 48, they will have in the next Congress a plurality of eighteen over the Democrats in the House, and of eleven over the Democrat in the Senate.

Here's a soap that is different from others. It washes in cold water. It washes with less labour, and it washes whiter. Housekeepers who use P & G White Naptha Soap prefer it to any other kind.

Washing with White Naptha lessens labour—the soap, not the woman, does the work.

You can get this wonderful soap at the stores in Curling for twelve or thirteen cents a cake

Gerald S. Doyle, St. John's
Distributor

nov1-4in.

Codroy Valley

The people of this vicinity are very thankful to J. J. Doyle and J. J. McCormac for installing a telephone in the Reid's station. It is very convenient for them to do their business in freight matters, etc.

Miss C. McDonald, R. C. teacher, has been confined to her home the past week with a bad cold.

Quite a quantity of fresh meat went out by No. 2 express yesterday for eastern markets.

Rabbits are very plentiful and are selling at thirty cents a pair.

Thos. Skeard went to Port aux Basques by Wednesday's train.

J. S. McIsaac, who was confined to his home the past week with a bad cold, is up again and feeling better.

E. J. Doyle, who had been to Sydney the past week, returned home last Sunday.

Most of our crops have been gathered in for the season. Large quantities of potatoes and turnips have been shipped to several inland towns.

Our old friend Kenneth Boudreaux who was visiting here, left for Nova Scotia by Monday's express. We were all pleased to meet him, but regret he is not remaining with us the coming winter.

There has been some horse talk lately. Few of our horsemen are getting busy already. A couple of new ones will, no doubt, make an appearance this winter, and the races promise to be a great success. Red Maud, the famous racer for many years, has been sold recently

JACK FROST.

West Coast Notes

Passengers travelling by the Kyle are entertained by aerial concerts from Connecticut, U.S.A., which they much enjoy.

The schr. H. H. McIntosh, Capt. Wm. Bennett, is loading herring at Sandy Point for Halifax. She will likely finish and sail by the end of the week.

The construction staff at Grand Lake and Deer Lake at present include A. Cobb, T. B. Goodridge, A. Martin, A. Graham, G. Patterson, G. Walters and John Campbell.

The schr. Benjamin Smith, Capt. Wm. Vincent, is now at Sandy Point, loading barreled herring for Halifax. From Halifax she will come to Curling for a cargo of herring.

Capt. Hackett, who arrived from Bonne Bay on Monday, told us that there was a slackening off of herring at that place. The fish were very plentiful at first, but the past few days only small catches were made.

Brief and Newsy

The schr. Passover went ashore at Bay Roberts and is a total wreck.

A young man named Edmunds, of Pushthrough, left his home on Thursday and has not since been heard of.

The Grand Falls branch of the Great War Veteran's Association held a concert and dance in the Grand Falls Town Hall last Thursday night. The affair was a big success.

ONE BOX OF

ZAM-BUK is acknowledged the most scientific and most reliable preparation yet discovered for injuries and skin disease. Yet it costs no more than vastly inferior salves and ointments.

NOTHING ELSE has the same marvellous *soothing, healing* and *antiseptic* power as this pure herbal Zam-Buk. Use it for all your skin troubles—from Cuts, Burns, Scalds and Sore Hands, to Chronic Eczema, Ringworm, Poisoned Wounds and Ulcers.

NEVER BE WITHOUT ZAM-BUK.

Does Far More Real Good Than a Score Boxes of Ordinary Salve

Wedding Bells

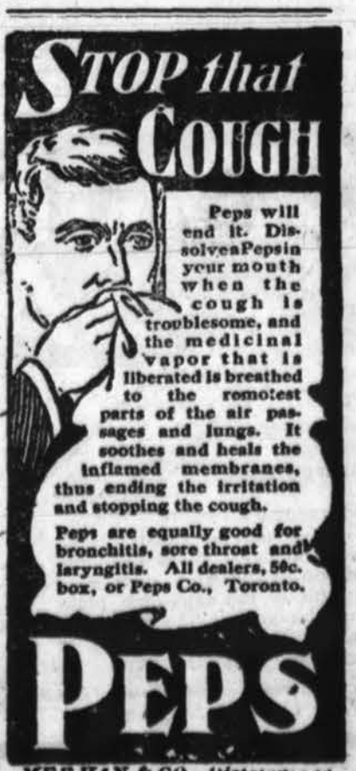
Sheppard-Fagan

The marriage of Miss Hazel Sheppard and Mr. Frank F. Fagan, took place at St. James Church, Lark Hr., on Friday afternoon, the marriage ceremony being performed by the Rev. H. Petley. The bride looked very nice in a travelling suit of navy blue and gray fox furs, with hat and veil to match. She was assisted by her sister, Miss Gertrude Sheppard, the best man being Mr. Isaac Sheppard. who ably supported the groom, while a sister of the bride, Miss Ella Sheppard, presided at the organ and rendered very skillfully the wedding march After the marriage ceremony the bride and groom proceeded to the home of Mr. and Mrs. M. G Sheppard, parents of the bride, where a reception was held which was attended by many friends of the newly married couple. Many valuable presents were received by the bride. At 10 o'clock a dance was held. The bridal party came to Curling on Tuesday and joined Wednesday's express for Conception Bay where they will reside, carrying with them the good wishes of their many friends for their future happiness.

BRITAIN WILL COMMAND THE SEA

Montreal, Nov. 10—Addressing the Canadian Club to-day Admiral William Sims said he believed the submarine was the greatest engine for the preservation of peace yet devised, since it made long distance naval attacks almost impossible. He argued that any coast properly defended with submarines and airplanes would be absolutely safe from attack by distant enemy, no matter how powerful. Despite the Washington Conference Admiral Sims maintained that Great Britain would command the surface of the sea.

STOP that COUGH



Peps will end it. Dissolve Pepsin your mouth when the cough is troublesome, and the medicinal vapor that is liberated is breathed to the remotest parts of the air passages and lungs. It soothes and heals the inflamed membranes, thus ending the irritation and stopping the cough.

Peps are equally good for bronchitis, sore throat and laryngitis. All dealers, 50c. box, or Peps Co., Toronto.

MADE IN CANADA

"Only the Best for me!"

declares the woman who takes pride in the kind of food she sets before her family.

She knows it doesn't pay to waste her good efforts and her good flour, eggs and other materials by using anything but ROYAL—the best baking powder made.

It Contains No Alum
Leaves No Bitter Taste

THE KINGDOM OF PULP

How many people understand the marvellous transition that has taken place, when they hold in their hands a sheet of paper—even their daily newspaper?

Just a little while ago it was a living thing in the forest. It spread its wide branches until they met in a vast canopy of brilliant green. Monarchs, each, of the Far Places, each roll of paper was a tree embedded in the firm mossy soil and raising its proud head to summer sunshine and the long bleak winters of the Land of the Flying Snow.

Then the sound of the axe was heard in the forest and down the shadowy slopes echoed the lusty songs of men, as the chips began to fly. Straining horses dragged the prostrate logs over pine-needle paths, until river currents welcomed them to a still longer voyage of discovery.

Virgin forests are not desecrated when put to man's purposes. It is merely a marvellous transition. Every forest tree is a library of books or a fluttering white stream from the heart of the Fourth Estate. And there is something of inspiration in the sudden knowledge that, as one reads, he holds in his hands the breath, the romance, the profound majesty and beauty of the forests.

But there is need of a united effort to save those forests from a real peril, a real destruction. Every year entire tracts of timberland are ravaged by fire. The hunter or trapper leaves a live coal burning as he passes on; a match is tossed carlessly into a bunch of dry leaves by the amateur woodsman. There is tragedy in this, a crime against nature, against Man himself. It is not what we use that causes paper shortage; it is what we waste, what we wantonly destroy. Let every man be a custodian of our forests, in the things that he says, in the things that he does. Fire in a forest knows no quarter.—The Marathon Runner.

MORE THIRST MORE EGGS

In "the good old days" it was common practice, especially in the United States, for the barkeeper to place a large dish of salted popcorn on the end of the bar with a "Help Yourself" sign on it. Salt herring were served out continually, and thousands of barrels of Newfoundland salt herring were consumed annually in the bar rooms and saloons of the United States. The idea was to encourage the customers to partake of this salted stuff so that they would be seized with increased thirst, which would induce them to drink more beer and consequently to bring more eggs to the bar keep's basket. It worked. Now comes the suggestion from an experimental farm that hens be fed more salt in order that they will be induced to drink more water for the belief is held that the more water they drink the more eggs they produce.

The salt is put in the soft food daily, one desertspoonful for 20 hens.

MILK AND SOUND TEETH

Science is constantly discovering new and valuable data regarding the importance of milk as a food, but perhaps no recent development is more interesting than that which has come to light regarding the value of milk to the growth and maintenance of sound teeth.

It appears that if the mineral matter and vitamines, such as are found in milk, are not supplied liberally to the growing child, the jaw bone and teeth do not develop properly. Where the child has been deprived of milk, the teeth, not having proper support are of inferior character and do not last more than a few years. Mineral salts and vitamines such as are found in milk and certain leafy vegetables, are indispensable to sound teeth in children.

SHOT HIS MOOSE

Mr. John Reid and Mr. Theodore Totten, East Mines, started out a few days ago still hunting for moose. They took quite a long tramp and brought up in the depth of the Masstown woods. Mr. Totten was the lucky hunter and coming upon a fine big moose his unerring rifle soon brought down this "Monarch of the Forest"; and the boys and girls are congratulating Theo, too, on his success as a Nimrod.—Truro News.

SIMONDS SAWS

The advantage in using "SIMONDS" Crescent Ground Saws is that the teeth are of even thickness throughout the entire length of the saw, thus making binding in the kerf impossible. Crescent Grinding is an exclusive Simonds feature.

Cut illustrates Simonds "Crescent Ground" Lance Tooth Cross-Cut Saw, No. 22.

A BIG DEER SHOT BY LORNE WEATHERBEE

One day before the 16 days of the open season for deer were ended Mr. Lorne Weatherbee left his business and hied off to Lower Truro on a deer hunt.

He left for the woods at 6 o'clock in company with George Murray of Lower Truro, walked nearly 3½ miles to the John Notting property and at 7.15 had a big buck dead at his feet. This was a remarkably fine piece of hunting.

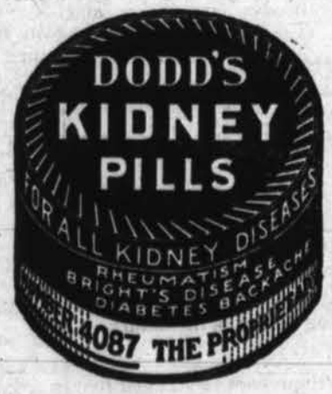
Mr. Weatherbee fired at this deer at 60 yards, and the one shot did the business; tho the hunter pumped in a second for fear of any "sky play" on the part of Mr. Buck.

The deer weighed, when dressed over 200 pounds, was indeed a big one, one of the largest ever shot in "these diggings," and many of Mr. Weatherbee's friends are revelling in a bit of fat, delicious, juicy venison to day. The generous hunter's only regret was that this fine buck was not bigger, so that a large circle of friends could be served.—Truro News.

A COMMUNITY COW

Buying a cow and renting it at $1 a week to families in the congregation is how the Church by the Side of the Road in Greensboro, N.C., is attempting to provide fresh milk for those who are unable to keep cows of their own. It is a new venture in church economics, but is apparently working out satisfactorily for both church and congregation. The income from the one cow is to be applied, we are told, to the purchase of more cows. Eventually, and if the plan is continued, the Church by the Side of the Road will have a community herd.—Literary Digest.

Henry Ford, whose income is over seventy five million dollars a year, in a circular to the Ford agents advises them to advertise. He says it does not cost to advertise, but pays. The advertising medium for Western Newfoundland is the WESTERN STAR.



NOTICE

Department of Agriculture

This Department keeps, for the convenience of the public, Insecticides, fungicides, consisting of Paris Green, Arsenate of Lead, both Paste and Powder; Lime Sulphur, Sheep Dip, Nikoteen, Blue Stone.

These chemicals are to be used as sprays and in other mixtures to combat the various insect pests such as effect vegetable crops, fruit bushes and trees and fungus growth, and are sold at cost.

Price list and pamhlet giving directions will be sent to any address on application.

ALBERT G. BAYLY,
Secretary of Agriculture.

WESTERN STAR, Curling

Newfoundland!

THE SPORTSMAN'S PARADISE.

Out of the beaten track of travel, this Country appeals irresistibly to the most blase of Globe Trotters. Opportunities for Sport unrivalled in North America. Salmon and Trout Streams easily accessable

Filled With Gamey Fish

SCENERY most enchanting; majestic headlands and fjords screen valleys of sylvan beauty. A trip to Newfoundland is an epoch in the life of the tourist. One visit means many.

COMFORTABLE HOTELS IN EVERY SETTLEMENT

Shooting Bungalows within easy reach of the lordly CARIBOU, the finest game in the New World. Proficient guides may be had at every Sporting Resort. Government and Railway officials ready to cater to Tourists' wants.

NEWFOUNDLAND has been called the Norway of America, but the comparison does not fully describe the charms of this Island in the Sea. Its Scenery is more entrancing than that of Norway and its summers are longer and more salubrious. The Island is easily reached from North Sydney, Nova Scotia.

ONLY SIX HOURS AT SEA

The Newfoundland Government will gladly furnish any information which the prospective Tourist may desire.

Every Help and Service Rendered to Visitors

Newfoundlanders are proverbially hospitable and aim to make the stay of the Visitor as pleasant as possible.

INFORMATION As to Sporting Resorts, Rates, etc, may be had by applying to any Steamship or Railway Company or from
